CHAIRMAN'S STATEMENT

Review of Activities and Prospects

Our first year of operation has been spent identifying and evaluating suitable investment opportunities, following the successful admission of the company's shares to the Alternative Investment Market (AIM) of the London Stock Exchange in October 2003. Our strategy remains to invest in property assets and companies with property assets where we can add significant value. The company focus has been upon trading and development of property either on its own account or in co-investment vehicles. We have a pipeline of opportunities which are being evaluated and are at various stages of negotiation.

During the period from incorporation to 30 September 2004, the company recorded a loss of £37,000. The company continues to minimise administrative overhead and does not incur excessive costs in evaluating potential transactions. Our in-house team is capable of undertaking much of this work without recourse to external advisers. Our key strength is an ability to identify complex property deals where our property management, development and transaction structuring skills can add significant value.

Management

We were pleased to announce in June 2004 that Steven Vaughan had been appointed to the board. Steven has been involved with the company from the outset and has been employed in sourcing and evaluating various transactions and opportunities. Steven is a chartered surveyor and was previously a senior executive at MEPC Limited.

I must also announce that with effect from 17 December 2004, Gavin Davidson will be resigning from the board in order to pursue other business and commercial interests. He has expressed a willingness to be available for suitable projects in the future. The board would like to express their gratitude to Gavin for his work in the last year and to wish him well for the future.

Events Since the Balance Sheet Date

We have today announced the exchange of contracts to acquire 175,000 sq ft of office and warehouse properties on Sheffield Business Park for £22.5 million. The acquisition has been undertaken through a 50:50 joint venture with a local private developer and is financed through a £19 million senior debt facility provided by the Royal Bank of Scotland. The joint venture will seek to add value through a number of rent review and re-letting opportunities and to realise this value over the next three years. Further opportunities have been identified for the joint venture and I am confident that this will be an extremely profitable investment for the company in the years to come.

The board is positive about the future prospects of the company and I am confident we will continue to identify suitable buying opportunities in the next financial year.

R T E Ware

Chairman

CORPORATE GOVERNANCE

The company is committed to high standards of corporate governance. The board is accountable to the company's shareholders for good corporate governance. This statement describes how the principles of corporate governance are applied to the company and the company's compliance with the Code provisions set out in Section 1 of the Combined Code prepared by the Committee on Corporate Governance chaired by Sir Ronald Hampel.

Statement by the Directors on Compliance with the Provisions of the Combined Code

The company complies with the provisions set out in Section 1 of the Combined Code to the extent appropriate for a company of its size and nature of business.

The Workings of the Board and its Committees

The Board

The board currently comprises the executive chairman, the finance director, two property directors and two independent non-executive directors. These demonstrate a range of experience and sufficient calibre to bring independent judgement on issues of strategy, performance, resources and standards of conduct which are vital to the success of the company. The board is responsible to shareholders for the proper management of the company. A statement of the directors' responsibilities in respect of the financial statements and a statement on going concern is given on page 10.

The board has a formal schedule of matters specifically reserved to it for decision. All directors have access to the advice and services of the company secretary, Peter Batchelor, who is responsible to the board for ensuring that board procedures are followed and that applicable rules and regulations are complied with. In addition, the company secretary ensures that the directors receive appropriate training as necessary. The appointment and removal of the company secretary is a matter for the board as a whole.

The board meets every month, reviewing trading performance, ensuring adequate funding, setting and monitoring strategy, examining major acquisition possibilities and reporting to shareholders. The non-executive directors have a particular responsibility to ensure that the strategies proposed by the executive directors are fully considered. To enable the board to discharge its duties, all directors receive appropriate and timely information. Briefing papers are distributed by the company secretary to all directors in advance of board meetings. The chairman ensures that the directors take independent professional advice as required.

The following committees deal with specific aspects of the company's affairs.

Remuneration Committee

The company's remuneration committee is chaired by Nigel Hamway and its other member is Michael Wigley. It is responsible for making recommendations to the board, within agreed terms of reference, on the company's framework of executive remuneration and its cost. The committee determines the contract terms, remuneration and other benefits for each of the executive directors, including performance related bonus schemes, pension rights and compensation payments. The board itself determines the remuneration of the non-executive directors. The non-executive directors are not involved in any discussions or decisions about their own remuneration.

Further details of the company's policies on remuneration, service contracts and compensation payments are included in the Directors' Remuneration Report on pages 6 to 8.

CORPORATE GOVERNANCE (continued)

Audit Committee

The audit committee is chaired by Nigel Hamway and its other member is Michael Wigley, and meets not less than two times annually. The committee provides a forum for reporting by the company's external auditors. Meetings are also attended, by invitation, by the chairman and the finance director.

The audit committee is responsible for reviewing a wide range of matters including the half-year and annual financial statements before their submission to the board and monitoring the controls which are in force to ensure the integrity of the information reported to the shareholders. The audit committee advises the board on the appointment of external auditors and on their remuneration both for audit and non-audit work, and discusses the nature, scope and results of the audit with external auditors. The audit committee keeps under review the cost effectiveness and the independence and objectivity of the external auditors.

Relations with Shareholders

Communications with shareholders are given high priority. The Chairman's Statement on page 3 includes a detailed review of the business and future developments. There is regular dialogue with shareholders.

The board uses the Annual General Meeting to communicate with private and institutional investors and welcomes their participation. The chairman aims to ensure that the chairman of the audit and remuneration is available at Annual General Meetings to answer questions. Details of resolutions to be proposed at the Annual General Meeting on 26 January 2005 can be found in the notice of the meeting on page 20.

Internal Control

The directors acknowledge that they are responsible for the company's system of internal control and for reviewing its effectiveness. The system is designed to manage rather than eliminate the risk of failure to achieve the company's strategic objectives, and can only provide reasonable not absolute assurance against material misstatement or loss.

The company's key risk management processes and system of internal control procedures include the following:

- Management structure: Authority to operate is delegated to executive management within limits set by the board. The appointment of executives to the most senior positions within the company requires the approval of the board.
- Identification and evaluation of business risks: The major financial, commercial, legal, regulatory and operating risks within the company are identified through annual reporting procedures.
- Information and financial reporting systems: The company's planning and financial reporting procedures include detailed operational budgets for the year ahead. The board reviews and approves them.
- Investment appraisal: A budgetary process and authorisation levels regulate capital expenditure. For expenditure beyond specified levels, detailed written proposals have to be submitted to the board. Commercial, legal and financial due diligence work is carried out if a business is to be acquired.
- Audit Committee: The audit committee monitors the controls which are in force and any perceived gaps in the control environment. The audit committee also considers and determines relevant action in respect of any control issues raised by external auditors.

DIRECTORS' REMUNERATION REPORT

Remuneration Committee

The company's remuneration committee is chaired by Nigel Hamway and its other member is Michael Wigley. The committee makes recommendations to the board, within agreed terms of reference, on an overall remuneration package for executive directors and other senior executives.

Remuneration Policy

The company's policy on directors' remuneration is that the overall remuneration package should be sufficiently competitive to attract, retain and motivate high quality executives capable of achieving the company's objectives and thereby enhancing shareholder value. The package consists of basic salary and share options, with a significant proportion based on performance and dependent upon the achievement of demanding targets. The level of fees payable to each director reflects his expected level of involvement.

Executive remuneration package: The remuneration committee proposes to align executive directors' remuneration packages to support the company's business strategy, whilst ensuring that rewards are market competitive. The company has put in place a share option scheme for the executive directors with rigorous performance conditions which demand a 20% per annum compound increase in the company's share price over a two year period in order that options vest. The remuneration committee considers that this scheme ensures that the directors' remuneration is closely aligned to shareholders' returns over the longer term.

The details of individual components of the remuneration package and service contracts are discussed below.

Basic salary and benefits: The salary and benefits are reviewed annually. Each director currently receives an annual salary of £10,000.

Share options: The share options are awarded annually by the remuneration committee. The maximum number of options that can be awarded is currently limited to 15% of the company's issued share capital.

The exercise price of options awarded is the higher of the nominal value of the shares and the market price on the date of award. Share options awarded during the year are detailed below.

The directors may only exercise the options awarded to them if the company's share price has grown by 20% per annum compounded over the two year period measured from the date upon which the options are granted. This performance condition may be retested on an annual basis if it is not achieved on the second anniversary. The performance conditions are aimed to align directors' performance to shareholder value.

Pensions: There is no pension scheme in existence.

Fees: The fees for non-executive directors are determined by the board. The non-executive directors are not involved in any discussions or decision about their own remuneration.

Service contracts: The company's policy is for all executive directors to have contracts of employment with provision for termination on no more than 12 months' notice. Payments on termination are restricted to the value of salary for the notice period.

DIRECTORS' REMUNERATION REPORT (continued)

None of the non-executive directors have service contracts. Letters of Appointment provide for an initial period of three years, subject to review. The remuneration of the non-executive directors takes the form solely of fees, which are set by the board having taken advice on appropriate levels.

There are no predetermined special provisions for executive or non-executive directors with regard to compensation in the event of loss of office. The remuneration committee would consider the circumstances of individual cases of early termination and determine compensation payments accordingly.

Service contracts

The service contracts and letters of appointment of the directors include the following terms:

This report is made solely to the company's shareholders, as a body, in accordance with Section 235 of the Companies Act 1985. Our audit work has been undertaken so that we might state to the company's shareholders those matters we are required to state to them in an auditors' report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's shareholders as a body, for our audit work, for this report, or for the opinions we have formed.

Respective Responsibilities of Directors and Auditors

Basis of Audit Opinion

We conducted our audit in accordance with United Kingdom Auditing Standards issued by the Auditing Practices Board. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the accounts. It also includes an assessment of the significant estimates and judgements made by the directors in the preparation of the accounts, and of whether the accounting policies are appropriate to the company's circumstances, consistently applied and adequately disclosed.

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the accounts are free from material misstatement, whether caused by fraud or other irregularity or error. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the accounts.

We read other information contained in the annual report and consider whether it is consistent with the audited financial statements. We consider the implications for our report if we become aware of any apparent misstatements or material inconsistencies with the financial statements.

Notes:

1. A member entitled to attend and vote at the meeting convened by the notice set out above may appoint a proxy to attend and, on a poll, to vote in his place. A proxy need not be a member of the Company.
2. A form of proxy is enclosed. To be effective, it must be deposited at the registered office of the Company's Registrars, Share Registrars Limited, Craven House, West Street, Farnham, Surrey GU9 7EN not later than 48 hours before the time appointed for holding the annual general meeting. Completion of the proxy does not preclude members from subsequently attending and voting at the meeting in person if they should so wish.
3. The register of interests of the directors and their families in the shares of the Company and copies of the contracts of service of directors with the Company will be available for inspection throughout the meeting and at the registered office of the Company during normal business hours on any week day (except Saturdays, Sundays and Public Holidays) from the date of this notice until the conclusion of the annual general meeting.
4. Pursuant to Regulation 41 of the Uncertified Securities Regulations 2001, the Company specifies that only those shareholders registered in the register of members of the Company as at 6.00 p.m. on 24 January 2005 shall be entitled to attend or vote at the meeting in respect of the number of shares registered in their names at that time. Changes to entries in the register of members after 6.00 p.m. on 24 January 2005 shall be disregarded in determining the rights of any person to attend or vote at the meeting.
5. CREST members who wish to appoint a proxy or proxies through the CREST electronic proxy appointment service may do so for the annual general meeting to be held on 26 January 2005 and any adjournment(s) thereof by utilising the procedures described in the CREST Manual. CREST Personal Members or other CREST sponsored members, and those CREST members who have appointed a voting service provider(s), should refer to their CREST sponsor or voting service provider(s), who will be able to take the appropriate action on their behalf.

In order for a proxy appointment or instruction made using the CREST service to be valid, the appropriate CREST message (a 'CREST Proxy Instruction') must be properly authenticated in accordance with CRESTCo's specifications and must contain the information required for such instructions, as described in the CREST Manual. The message, regardless of whether it constitutes the appointment of a proxy or an amendment to the instruction given to a previously appointed proxy must, in order to be valid, be transmitted so as to be received by the issuer's agent by the latest time(s) for receipt of proxy appointments specified in the notice of meeting. For this purpose, the time of receipt will be taken to be the time (as determined by the timestamp applied to the message by CREST Applications Host) from which the issuer's agent is able to retrieve the message by enquiry to CREST in the manner prescribed by CREST. After this time any change of instructions to proxies appointed through CREST should be communicated to the appointee through other means.

CREST members and, where applicable, their CREST sponsors or voting service providers should note that CRESTCo does not make available special procedures in CREST for any particular messages. Normal system timings and limitations will therefore apply in relation to the input of CREST Proxy Instructions. It is the responsibility of the CREST member concerned to take (or, if the CREST member is a CREST personal member or sponsored member or has appointed a voting service provider(s), to procure that his CREST sponsor or voting service provider(s) take(s)) such action as shall be necessary to ensure that a message is transmitted by means of the CREST system by any particular time. In this connection, CREST members and, where applicable, their CREST sponsors or voting service providers are referred, in particular, to those sections of the CREST Manual concerning practical limitations of the CREST system and timings.

The Company may treat as invalid a CREST Proxy Instruction in the circumstances set out in Regulation 35(5)(a) of the Uncertified Securities Regulations 2001.
